

Your PBM for Specialty Pharmacy Solutions

Unlocking Value for Brokers, TPAs, and Self-Funded Employer Groups

Specialty pharmacy costs are among the fastest-growing expenses in healthcare today. Drex*i* offers innovative, transparent, and member-focused solutions that set us apart from other PBMs, providing the tools brokers and TPAs need to help self-funded employer groups save significantly on pharmacy spend while ensuring exceptional member experiences.

What makes Drex*i* the best choice for your Pharmacy Coverage

 **Transparent Pricing:**
We believe in clear, pass-through pricing with no hidden fees. Brokers and TPAs can trust Drex*i* to deliver cost-effective solutions that align with the goals of their clients.

 **Member-Centric Approach:**
Unlike traditional PBMs, we prioritize the needs of the member, ensuring a seamless and supportive pharmacy benefit experience.

 **International Drug Sourcing:**
Leveraging our international networks, Drex*i* provides access to high-cost specialty medications at substantially lower prices, creating significant savings.

 **Proven Results:**
Our clients consistently experience substantial savings, including over \$280,000 saved in just six months through innovative programs like InternationalRx.

Strategies to Reduce Costs

PA Guidelines and Process:
Drex*i* streamlines PA processes to ensure appropriate utilization, reducing unnecessary costs and improving overall outcomes for self-funded groups. And with a **PA Approval Rate of 63%** vs 95%+ under a traditional model, we are reducing not only costs but also waste.

Promoting Site of Care Alternatives:
Redirecting infusions and specialty treatments to cost-effective settings without compromising quality or member satisfaction.

Maximizing Savings Programs:
Drex*i* integrates assistance programs like MSP, PAP, and copay cards to offset costs for high-priced drugs while reducing the burden on employer budgets.

\$280,000

a Drex*i* plan's savings in less than 6 months thanks to our alternative cost savings strategies

J-Code Hospital Infusion Carve Outs:
By identifying and managing J-code claims, Drex*i* helps employers control the rising costs of specialty medications administered in hospitals.

Medicare, Medicaid, and CHIP Coordination
Our proactive approach ensures alignment with government programs, optimizing member benefits and reducing plan liabilities.
