Simple ways to help you save

Here are a few good-to-know things you can do to help get more out of your health plan.

Stay in the network

The doctors and facilities in the network may have agreed to provide services at a discount – so staying in network makes sense, especially when visiting an out-of-network provider could end up costing you a lot more for care or may not be covered at all.

Sign in to myuhc.com > **Find Care & Costs** to locate:

- Labs
- Mental health professionals
- Hospitals
- Network providers

Look up the cost of medication

Sign in to myuhc.com > **Pharmacies & Prescriptions** to find information about your medication, pricing and lower-cost options.

Shop around

With such a wide variety of services, from minor procedures to major surgeries, it's a good idea to check approximate pricing first. Visit myuhc.com > **Find Care & Costs** to view average costs.

With a PCP, there's a doctor in your corner

Your primary care provider (PCP) is your health guide—someone who can help connect you to the care you need and help you avoid cost surprises. A PCP can be a family practitioner, internist, pediatrician or general medicine physician.* Although your plan may not require you and each covered family member to select a network PCP,** it can be a good idea to have one.

Your PCP:

Generally knows your health history and health goals

Provides routine care, which may help identify potential health issues earlier

Advises you when to see a specialist and provides electronic referrals

Find a network provider

Sign in to myuhc.com > **Find Care & Costs** to find a network PCP, clinic, hospital or lab based on location, specialty, availability, hours of operation and more. You can even see patient ratings and view average costs before you choose a provider. If you would like more information about a provider's qualifications, call the member phone number on your ID card.

*Laws in some states allow you to choose a specialist, like an OB/GYN, as your PCP.
** Depending on your health plan, selection of a PCP may be required.

Keep up on preventive care

Preventive care—such as routine wellness exams and certain recommended screenings and immunizations—is covered by most of our plans at no additional cost when you see network providers. A preventive care visit may be a good time to help establish your relationship and create a connection for future medical services. Learn more at uhc.com/health-and-wellness/preventive-care.

Choose a doctor

The **UnitedHealth Premium® program** uses national, evidence-based, standardized measures to evaluate physicians in various specialties to help you locate quality providers. Find UnitedHealth Premium Care Physicians by going to myuhc.com > **Find Care & Costs** and look for blue hearts.

Here's an example of how a typical health plan works

Let's take a look at an example of how a typical plan works when you receive care from a network provider. Your plan may be different than this example, so to find your specific details go to myuhc.com > Coverage & Benefits.

Along the way, you may also be required to pay a fixed amount—or **copay**—each time you see a provider.

*Your deductible and coinsurance may vary by plan or service. This example is for illustrative purposes only. Please refer to your official plan documents for coverage details.

Here's what to do if you need:

Hospital care

Talk to your PCP first to determine which hospital in your network can meet your medical or surgical needs. You or the admitting physician may be required to notify us before you're admitted.

Prior authorization

Your plan may also require prior authorization, sometimes called preauthorization, before you receive certain services. This means that you or your network provider may need to get approval from your plan before the services are covered. Call the member phone number on your ID card to check if prior authorization is needed.

Referrals

If your ID card says "Referrals Required," have your PCP send us an electronic referral before you make an appointment with a specialist or other network provider. Without it, your care may not be covered and you may end up paying more. To learn what services require referrals, or to confirm that a referral has been made, sign in at myuhc.com.

Referrals aren't needed to see the following network providers:

- Obstetricians/gynecologists
- Behavioral health or substance use disorder clinicians

Emergencies are covered anywhere in the world—including hospitals out of the network—without a referral.

Get to know your care options and costs

How much you pay for care can depend on where you get it – and a great place to start may be with your PCP. For serious or life-threatening conditions, call 911 or go to an emergency room.
