Illinois plan guide

Creating the right health benefits package starts with you and your employees

Plans effective January 1, 2015
For businesses with 2 – 100 employees

Choosing the right health plan

Every company has its own particular needs, driven in part by the health of its employees, by its commitment to health and wellness and, of course, by its financial resources.

We believe creating the right health benefits and insurance plan means combining these four options to meet a company's specific needs: **benefits, network, cost sharing, funding.**

Experience matters

We take the time to listen and learn about your needs. Our experience allows us to share knowledge and provide tools to help achieve the right balance of cost and coverage.

Our approach makes all the difference in the value you get from your plan, and in the satisfaction of your employees.

Today's health care environment demands a new set of solutions to meet new challenges. Together, we can create a healthy future for your company and your employees.

We want to make choosing the right benefits as easy as possible. So we've organized information in this easy-to-understand guide.

Information about your plan due to health care reform

Signed into law in March 2010, the Affordable Care Act is the most life-changing law since the passing of Medicare in the 1960s. We are committed to following the new health care law and to helping you understand its impact.

We have outlined below key changes that may impact your health care benefits.

Essential health benefits package

Aetna plans must offer standard coverage known as “essential health benefits.” This includes all plans inside and outside of the health insurance exchanges. These benefits provide your employees with essential health benefits, and limit cost sharing.

Here are the broad categories of essential benefits that will be included in your employees’ coverage:

- Ambulatory patient services
- Emergency services
- Hospitalization
- Maternity and newborn care
- Mental health and substance abuse services
- Prescription drugs
- Rehabilitative and habilitative services and devices
- Laboratory services
- Preventive and wellness services and chronic disease management
- Pediatric dental
- Pediatric vision

Out-of-pocket (OOP) maximum mandate

All cost sharing must apply toward the OOP maximum*, including in-network medical, behavioral health and pharmacy cost sharing. This does not include premiums, balance billing amounts of non-network providers or spending for non-covered services.

The out-of-pocket maximum must include:

- Copays
- Deductibles
- Coinsurance

Fees

These fees are included in your premium:

- **Health Insurer Fee**— Annual fee to offset premium subsidies and tax credit related expenses
- **Transitional Reinsurance Program Contribution**— Helps finance the cost of high-risk individuals in the individual market
- **Patient-Centered Outcomes Research Fee (also known as the Comparative Effectiveness Fee)**— Fee to fund clinical outcomes effectiveness research

Guaranteed issue

Guaranteed issue of health insurance coverage applies to individual, small group and large group markets. Guaranteed issue is available for:

- Group health plans/insurance coverage (insured only)
- Individual health insurance coverage (including medical conversion)
- Pharmacy (insured only)
- Behavioral health (insured only)**

Please note that guaranteed issue is not available for:

- Self-funded plans
- Standalone/separate dental or vision
- Hospital indemnity/fixed indemnity
- Medicare and Medicare Supplement
- Medicaid
- Retiree-only plans
- Grandfathered plans
- Association/MEWA plans

Waiting period

Plans may not have any waiting periods longer than 90 days. The benefit waiting period for future employees may be the 1st or 15th or the month following 0 days, 30 days or 60 days. The maximum 90-day waiting period applies to fully insured and self-funded plans. Refer to Underwriting guidelines for details.

*Prescription drugs may have a separate out-of-pocket maximum.

**No standalone insured behavioral health.

Pediatric dental/vision

Pediatric dental and vision mandates are a separate essential health benefit category and are included with your medical benefits. We will cover those services in 2015 according to the benchmark plan coverage.

Pediatric dental (2 – 50 only)

Plan levels

You can choose up to four levels of health plans. These levels are named using metals —bronze, silver, gold and platinum. Each level includes the same essential health benefits. But the levels differ in how much the health plan pays.

Health plan levels	Average amount the plan pays for covered services	Premium cost for employees
Bronze	60%	Lowest
Silver	70%	Lower
Gold	80%	Higher
Platinum	90%	Highest

You'll soon see many changes in health insurance, thanks to health care reform. Many of them affect your business. And some of them might be confusing. Visit the health care reform section on www.aetna.com for more information. Or talk with your broker.

Tools to help your employees stay healthy, informed and productive

With Aetna health plans, your employees get online tools and helpful resources that let them make the most of their benefits. Our most popular tools include:

- **Secure member website.** Your employees get self-service tools, plus health plan and health information through their Aetna Navigator® website. Think of it as the key that unlocks the full value of their health benefits package. Encourage them to sign up at www.aetna.com.
- **Member Payment Estimator.** With an Aetna health plan, your employees can compare and estimate costs* for office visits, tests, surgeries and more. This means they can save money** —and avoid surprises. This online tool factors in their deductible, coinsurance and copays, plus contracted rates. They can see how much they have to pay and how much the plan will pay. They can log in to their Aetna Navigator member website to use the tool.
- **Online provider directory.** Finding doctors, specialists, hospitals and more in the Aetna network is easy with our DocFind® search tool. It's available at www.aetna.com and the Aetna Navigator member website.
- **My Life Values.** Your employees get 24/7 online services and support for managing their everyday personal and work matters.
- **iTriage®.** This is a free mobile app that lets employees research symptoms and diseases, find a medical provider and even book an appointment — all from the convenience of a mobile device. iTriage guides members to network doctors, hospitals and facilities based on your company health plan. It can help direct them to the most appropriate, cost-effective care.

*Estimated costs not available in all markets. The tool gives you an estimate of what a member would owe for a particular service based on the plan at that very point in time. Actual costs may differ from the estimate if, for example, claims for other services are processed after getting an estimate but before the claim for this service is submitted. Or, if the doctor or facility performs a different service at the time of your visit.

**In 2011, members who used Member Payment Estimator before receiving care saved an average of \$170 out of pocket on 34 common procedures, according to the Member Payment Estimator Study, Aetna Informatics and Product Development, August 2012.

Choose from a wide range of health benefits and insurance options to fit your needs

About our benefits

Choose from numerous, integrated benefits options that can lead to improved employee engagement and health, while helping you manage your costs. This includes medical, pharmacy, dental, life, disability and vision. Plus, online tools that help employees use their benefits wisely and get help when they need it.

About our network

We have many full-network and tiered-network options to lower employer costs while still providing employees with access to quality care. Our doctor networks prioritize quality and efficiency to improve the health care experience and make it easy for individuals to get the care they need.

About our cost sharing

Some of our cost-sharing arrangements encourage employees to become more involved in their own health care and become better health care consumers. Employees with these plans receive more preventive care, have lower overall costs and use online tools more frequently.

About our funding options

We can show you how a combined network, cost sharing and benefits approach can help you manage your premium to meet your budget. We also offer a range of funding options— from traditional fully insured to enhanced self-insured solutions— that provide different levels of cost, plan control and information access.

Network options for healthy outcomes and lower costs

Our network solutions help lower your costs while providing employees with access to trusted doctors and hospitals. Your employees can still get care within the broad Aetna network. But they pay less out of pocket when they use doctors and hospitals in our special networks. The more they use health care providers in these networks, the more likely you are to see lower medical costs.

We make it easier for your employees, too. They get online tools for estimating costs and finding the right doctors and hospitals.

Cost sharing and premiums for every budget

Your focus is on lower costs. Increasingly, that means greater levels of employee cost sharing. With Aetna in your corner, you can come up with a strategy that suits your employee base and price point. And you can choose from the full spectrum of health plan types:

- Our fully insured portfolio, traditionally a mainstay for small businesses, provides plans with a range of robust coverage options.
- New self-funded options for small businesses may help you manage costs while simplifying administration and making monthly expenses more predictable.
- Our defined contribution offering combines an attractive benefits package with more controlled costs. As well as motivation for your employees to get more involved in their health care.
- Our consumer-directed health plans have long offered fully featured coverage, along with lower premiums and higher deductibles. Our research has found that members with these plans have lower overall health care costs, receive more preventive care and use online tools more frequently than members with traditional plans.

Health and wellness programs

Having a happier, healthier workforce is important to you. So is cost management. We've found that helping your employees get more involved in managing their health and well-being is a great way to meet these goals. Talk to your broker or Aetna representative to learn more about our programs.

Wellness on us

- **eBilling.** Save time and simplify reconciliation and payment, anytime, anywhere, with our secure system. It lets you get, view and pay all your medical and dental bills online.

Aetna high-deductible HSA-compatible Health Network Option/Aetna Open Access Managed Choice and Traditional Choice plans

These plans are compatible with a health savings account. They provide integrated medical and pharmacy benefits. Preventive care services are exempt from the deductible.

HSAs provide employers and their qualified employees with an affordable tax-advantaged solution that allows them to better manage their qualified medical and dental expenses.

- Employees can build a savings fund to help cover their future medical and dental expenses. HSA accounts can be funded by the employer or employee and are portable.
- Fund contributions may be tax-deductible (limits apply).
- Funds used to cover qualified out-of-pocket medical and dental expenses are not taxed.

It is completely at the discretion of the employer or employee whether or not to establish an HSA.

Note: Employers and employees should consult with their tax advisor to determine eligibility requirements and tax advantages for participation in the HSA plan.

Health Savings Account (HSA)*

No set-up or administrative fees

The Aetna HealthFund HSA, when coupled with a HSA-compatible high-deductible health benefits and health insurance plan, is a tax-advantaged savings account. Once enrolled, account contributions can be made by the employee and/or employer. The HSA can be used to pay for qualified expenses tax free.

HSA Account

- Member owns the HSA
- Contributions are tax free
- Member chooses how and when to use HSA dollars
- Roll it over each year and let it grow
- Earns interest tax free

Today or in the future

- Use now for qualified expenses with tax-free dollars
- Plan for future and retiree health-related costs

High-deductible health plan

- Eligible in-network preventive care services will not be subject to the deductible
- Member pays 100 percent until deductible is met, then only pay a share of the cost
- Once out-of-pocket maximum met, plan pays 100 percent

Health Reimbursement Arrangement (HRA)**

The Aetna HealthFund HRA combines the protection of a deductible-based health plan with a health fund that pays for eligible health care services. The member cannot contribute to the HRA, and employers have control over HRA plan designs and fund rollover. The fund is available to an employee for qualified expenses on the plan's effective date.

The HRA and the HSA provide members with financial support for higher out-of-pocket health care expenses. Our consumer-directed health products and services give members the information and resources they need to help make informed health care decisions for themselves and their families while helping lower employers' costs.

COBRA administration

Aetna COBRA administration services will help you save time and money. It can also help you manage the complex billing and notification duties that come with COBRA compliance. It includes a full range of documentation and record-keeping processes.

Section 125 Cafeteria Plans and Section 132 Transit Reimbursement Accounts

Employees can reduce their taxable income, and employers can pay less in payroll taxes. There are three ways to save:

Premium-Only plans (POP)

Employees can pay for their portion of the group health insurance expenses on a pretax basis. First-year POP fees are waived with the purchase of medical with five or more enrolled employees.

Flexible Savings Account (FSA)

FSAs give employees a chance to save for health expenses with pretax money. Health care spending accounts allow employees to set aside pretax dollars to pay for out-of-pocket expenses as defined by the IRS. Dependent Care Spending Accounts allow participants to use pretax dollars to pay child or elder care expenses.

Transit Reimbursement Account (TRA)

TRAs allow participants to use pretax dollars to pay transportation and parking expenses for commuting to and from work.

*HSAs are currently not available to HMO members in Illinois.

**Aetna HRAs are subject to employer-defined use and forfeiture rules.

Pharmacy tier information

A plan offers programs that encourage members to choose lower cost drugs over brand-name drugs. This helps members get the most value from their benefits by reducing what they pay.

A list of drugs that a health plan covers is called a formulary. It can include up to five tiers. Think of tier as a level. For example, a three-tier formulary means a member could pay three different amounts, depending on the drug prescribed. Members pay either a flat fee, known as a **copay**, or a percent of the prescription’s price, a **cost share**.

The formulary tiers start with the most affordable options. Here is an example of what formulary tiering might look like:

Health care reform zero dollar drugs (HCR \$0 drugs)

Tier 1A (value drugs)– Preferred low cost generics and brand over the counter (OTC) drugs

Tier 1– Preferred generics

Tier 2– Preferred brand-name drugs

Tier 3– Non-preferred brand-name and non-preferred generic drugs

Tier 4– Preferred specialty drugs

Tier 5– Nonpreferred specialty drugs (Members pay the highest amount for nonpreferred specialty drugs in this level. Specialty drugs may be injected, infused or taken by mouth.)

You can learn more about covered drugs at

www.aetna.com/formulary.

Members can log into **www.aetna.com** and use our Price a DrugSM tool to see what they will pay for their medicine. From the Price a Drug tool, members can get an estimated cost of a prescription from their local retail pharmacy or from mail order. It provides a cost comparison between generic and brand-name drugs.

Footnotes

All services are subject to the deductible unless noted otherwise.

Some benefits are subject to age and frequency schedules, limitations or visit maximums.

Members or providers may be required to precertify or obtain approval for certain services.

*How your out-of-network care is reimbursed: we cover the cost of services based on whether doctors are “in network” or “out of network.” We want to help you understand how much Aetna pays for your out-of-network care. At the same time, we want to make it clear how much more you will need to pay for this “out-of-network” care.

You may choose a provider (doctor or hospital) in our network. You may choose to visit an out-of-network provider. If you choose a doctor who is out of network, your Aetna health plan may pay some of that doctor’s bill. Most of the time, you will pay a lot more money out of your own pocket if you choose to use an out-of-network doctor or hospital.

When you choose out-of-network care, Aetna limits the amount it will pay. This limit is called the “recognized” or “allowed” amount.

Professional services: 105% of Medicare prevailing charges

Facility services: 105% of Medicare prevailing charges

Your doctor sets his or her own rate to charge you. It may be higher — sometimes much higher — than what your Aetna plan “recognizes.” Your doctor may bill you for the dollar amount that your plan doesn’t “recognize.” You must also pay any copayments, coinsurance and deductibles under your plan. No dollar amount above the “recognized charge” counts toward your deductible or out-of-pocket maximums. To learn more about how we pay out-of-network benefits visit www.aetna.com. Type “how Aetna pays” in the search box.

You can avoid these extra costs by getting your care from Aetna’s broad network of health care providers. Go to www.aetna.com and click on “Find a Doctor” on the left side of the page. If you are already a member, sign on to your Aetna Navigator member site.

This applies when you choose to get care out of network. When you have no choice (usually, for emergency services), some of our plans pay the bill as if you got care in network. For those plans, you pay cost sharing and deductibles based on your in-network level of benefits. You do not have to pay anything else. Other plans pay the bill differently. And, under those plans, you may be responsible for more than your in-network cost sharing. The additional amounts could be very large. Look at your

plan or contact us to find out more about how your plan pays for emergency services.

**If the physician prescribes or the member requests a covered brand-name prescription drug when a generic prescription drug equivalent is available, the member will pay the difference in cost between the brand-name prescription drug and the generic prescription drug equivalent plus the applicable cost sharing. The cost difference between the generic and brand does not count toward the out-of-pocket limit.

Aetna Select Lite: Not all drugs are covered. It is important to look at the Drug List (Aetna Value Plus Formulary) to understand which drugs are covered.

***T1A=Value drugs; T1=Preferred generic drugs.

[†]Includes nonpreferred generic and brand drugs.

^{††}P=Preferred specialty drugs; NP=Nonpreferred specialty drugs.

¹Embedded—No one family member may contribute more than the individual deductible/out-of-pocket limit amount to the family deductible/out-of-pocket limit. Once the family deductible/out-of-pocket limit is met, all family members will be considered as having met their deductible/out-of-pocket limit for the remainder of the calendar.

²INN & OON Plan: Benefit limits are combined between network and out-of-network care.

³TIF—The individual deductible/out-of-pocket limit can only be met when a member is enrolled for self only coverage with no dependent coverage. The family deductible/out-of-pocket limit can be met by a combination of family members or by any single individual within the family. Once the family deductible/out-of-pocket limit is met, all family members will be considered as having met their deductible/out-of-pocket limit for the remainder of the calendar year.

Note: For a summary list of limitations and exclusions, refer to page 69. Please refer to our Producer World® website at www.aetna.com for specific Summary of Benefits and Coverage documents. Or for more information, please contact your licensed agent or Aetna Sales Representative.

Aetna dental plans

Dental coverage is sure to put a smile on your employees' faces. Our affordable plan design options make it possible for you to add this valuable benefit to your package.

Dental overview

The Mouth MattersSM

Research suggests that serious gum disease, known as periodontitis, may be associated with many health problems. This is especially true if gum disease continues without treatment.¹ Now, here's the good news. Researchers are discovering that a healthy mouth may be important to your overall health.¹

The Aetna Dental/Medical IntegrationSM program* is available at no additional charge to plan sponsors that have both medical and dental coverage with Aetna. The program focuses on those who are pregnant or have diabetes, coronary artery disease (heart disease) or cerebrovascular disease (stroke) and have not had a recent dental visit. We proactively educate those at-risk members about the impact oral health care can have on their condition. Our member outreach has been proven to successfully motivate those at-risk members who do not normally seek dental care to visit the dentist. Once at the dentist, these at-risk members will receive enhanced dental benefits including an extra cleaning and full coverage for certain periodontal services.

The Dental Maintenance Organization (DMO)[®]**

Members select a primary care dentist to coordinate their care from the available managed dental network. Each family member may choose a different primary care dentist and may switch dentists at any time on Aetna Navigator or with a call to Member Services. If specialty care is needed, the primary care dentist can refer the member to a participating specialist. However, members may visit orthodontists without a referral. There are virtually no claim forms to file, and benefits are not subject to deductibles or annual maximums.

Preferred Provider Organization (PPO) plan

Members can choose a dentist who participates in the network or choose a licensed dentist who does not. Participating dentists have agreed to offer our members covered services at a negotiated rate and will not balance-bill members.

PPO Max plan

While the PPO Max dental insurance plan uses the PPO network, when members use out-of-network dentists the service will be covered based on the PPO fee schedule, rather than the usual and prevailing charge. The member will share in more of the costs and may be balance-billed. This plan offers members a quality dental insurance plan with a significantly lower premium that encourages in-network usage.

Freedom-of-Choice plan design option

Get maximum flexibility with our two-in-one dental plan design. The Freedom-of-Choice plan design option provides the administrative ease of one plan, yet members get to choose between the DMO and PPO plans on a monthly basis. One blended rate is paid. Members may switch between the plans monthly by calling Member Services. Plan changes must be made by the 15th of the month to be effective the following month.

Dual option*** plan

In the Dual Option plan design, the DMO may be packaged with any one of the PPO plans. Employees may choose between the DMO and PPO offerings at annual enrollment.

Voluntary dental option

The voluntary dental option provides a solution to meet the individual needs of members in the face of rising health care costs. Administration is easy, and members benefit from low group rates and the convenience of payroll deductions.

Aetna Dental Preventive CareSM plan

Aetna Dental Preventive Care is a lower cost dental plan that covers preventive and diagnostic procedures. Members pay nothing for these services when visiting an Aetna PPO dentist.

¹MayoClinic.com. "Oral health: A window to your overall health." www.mayoclinic.com/health/dental/DE00001. February 5, 2011. Accessed July 2014.

*DMI may not be available in all states.

**State laws vary with regard to out-of-network benefits. In Illinois, DMO plans provide limited out-of-network benefits. However, in order to receive maximum benefits, members must select and have care coordinated by a participating primary care dentist. Illinois DMO is not an HMO.

***Dual option does not apply to preventive plans or voluntary dental 3–9 size plans.

However, the DMO benefits do not apply. In situations where the dentist participates in both the Aetna Dental Access network and the Aetna DMO network, DMO benefits take precedence over all other discounts including discounts through the Aetna Dental Access network.

Aetna Dental Access network is not insurance or a benefits plan. It only provides access to discounted fees for dental services obtained from providers who participate in the Aetna Dental Access network. Members are solely responsible for all charges incurred using this access, and are expected to make payment to the provider at the time of treatment.

Keep an eye on your employees' health

We are committed to vision wellness, patient education and the associated preventive care.

Encouraging employees to get vision care can help lower unnecessary costs and improve overall health. During a routine eye exam, all aspects of vision are checked, including the eye's structure and how well the eyes work together. Annual eye exams allow eye care providers to monitor the health of the eyes and track changes that can occur from year to year. Besides measuring vision, eye exams help find early signs of certain chronic health conditions including diabetes, high blood pressure, heart disease, high cholesterol and eye disease.¹

*Discounts may not be available in all states.

**Results will vary for different plan designs. Example does not include premiums.

Discover the freedom to see any licensed vision office or retailer

Nearly 60 percent of eyewear dollars in the United States are spent at optical retailers.² With Aetna Vision Preferred, you and your employees will have access to thousands of independent providers and the most desired retail locations nationwide. We have one of the largest national networks with over 65,000 vision office and retailers, including the most desired national retailers,³ including LensCrafters®, Pearle Vision®, Sears® Optical, Target Optical® and JCPenney Optical. Most have evening and weekend hours, including Sundays, and are located in or near shopping centers for added convenience.

Can't find your provider in our network? No problem. We reimburse for most services from out-of-network vision care providers, so members are covered no matter who they see for routine eye care.

With Aetna as your insurer, you can round out your employee benefits package with even more coverage. Our group life and disability is an affordable way to offer your employees — and their families — the extra financial protection of life insurance and disability benefits.

Life & disability

overview

For groups of 2 to 50, Aetna Life Insurance Company (Aetna) offers several options for small group life and disability insurance plans. All are easy to understand and offer affordable benefits to help your employees protect their families in the event of illness, injury or death. You'll benefit from streamlined plan installation, administration and claims processing. We offer:

- Life
- Short-term disability
- Long-term disability (10–50 only)
- Life and disability packaged plans

For groups of 51 and above, we offer a robust portfolio of life and disability products with flexible plan features. Please consult your sales representative for a plan designed to meet your group's needs:

- Basic life
- Supplemental life
- AD&D Ultra®
- Supplemental AD&D Ultra®
- Dependent life
- Short-term disability
- Long-term disability

Life insurance

We know that life insurance is an important part of the benefits package you offer your employees. That's why our products and programs give you:

- Flexibility
- Added value
- Cost efficiency
- Experienced support

We help you give employees what they're looking for in lifestyle protection, through our selected group life insurance options. And we look beyond the benefits payout to include useful enhancements through the **Aetna Life EssentialsSM** program.

So what's the bottom line? A portfolio of value-packed products and programs to attract and retain workers—while making the most of the benefits dollars you spend.

Giving you (and your employees) what you want

Employees are looking for cost-efficient plan features and value-added programs that help them make better decisions for themselves and their dependents.

Our life insurance plans come with a variety of features including:

Accelerated death benefit—Also called the “living benefit,” the accelerated death benefit provides payment to terminally ill employees or spouses. This payment can be up to 75 percent of the life insurance benefit.

Premium waiver provision—Employee coverage may stay in effect up to the amended normal Social Security retirement age without premium payments (unless they retire sooner), if an employee becomes permanently and totally disabled while insured due to an illness or injury before age 60.

Optional dependent life—This feature is available to employers with a staff of at least 10. Your employees can buy optional additional coverage for eligible spouses and children. This is an employee-paid benefit.

Our fresh approach to life

With **Aetna Life Essentials**, your employees have access to programs during their active lives to help promote healthy, fulfilling lifestyles. In addition, Aetna Life Essentials provides for critical caring and support resources for often-overlooked needs during the end of one's life. And we also include value for beneficiaries and their loved ones well beyond the financial support from a death benefit.

AD&D Ultra®

AD&D Ultra is standard with our small group term life plans and in our packaged life and disability plans, and provides employees and their families with the same coverage as a typical accidental death and personal loss plan — and then some. This includes extra benefits at no additional cost, such as coverage for education or child-care expenses, that make this protection even more valuable.

Covered losses include:

- Death
- Loss of limb
- Loss of sight
- Loss of speech
- Loss of hearing
- Third-degree burns
- Paralysis
- Coma
- Total disability
- Exposure and disappearance

Extra benefits for the following:

- Passenger restraint use and airbag deployment*
- Education assistance for dependent child and/or spouse*
- Child care*
- Repatriation of mortal remains*

Disability insurance

Did you know the ability to earn an income is the most important financial resource for an individual? Yet, few take steps to help protect this important resource from the threat of a disability.

No one wants to think about it, but injury or illness can happen at any time. It can impact both your business and your employees' financial well-being. Your business can lose the productivity of valued employees. Your employees can lose their paycheck.

That is why disability insurance is so important. It provides protection for your business and your employees.

We understand disability

We have experienced and caring professionals who understand the challenges of disability. We realize how important it is for your employees to be able to work. That is why we are dedicated to providing solutions.

Here are a few ways our disability plans protect you and your employees:

- Consultative support from your account team is based on the unique needs of your business
- Our embedded **Behavioral Health Unit** has compassionate licensed therapists and psychiatric nurses who recognize the complexities of behavioral health conditions. They work with your employees and their health care providers to overcome barriers blocking successful return to work.
- Master's level **Vocational Rehabilitation Consultants** offer a coordinated productivity approach focused on the employee's abilities. The goal is to aid your employee's transition back to the workforce.

More choices for interaction

Our best-in-class technology offers more choices for you and your employees to interact with us. Whether you choose mail, phone, e-mail, mobile application or our convenient WorkAbility® Absence Management System online portal, information is available on your schedule, not ours.

For a summary list of limitations and exclusions, refer to pages 69–71.
