

Perfect match

Our **Aetna Smart Compare**[®] solution helps your employees find the best doctor for their needs

Quality care and value together

Want to help your employees get quality health care? That's the idea behind Aetna Smart Compare from CVS Health® and Aetna®. It's a member-centered experience that helps your employees get the right care at the right time from the right provider. And that helps keep their health care journey affordable from the beginning all the way through the management of their health conditions.

Finding the best solutions

Aetna Smart Compare engages your employees and directs them to the best care using Aetna assets. We'll implement a coordinated set of initiatives across channels and levers to drive changes in your employees' behavior.

How does it work?

Aetna Smart Compare uses a unique methodology to direct employees to appropriate high-performing in-network doctors. Leveraging our deep expertise in digital member platform tools and our robust data set of quality provider results, we find the best provider for each employee based on their personal needs. The result is quality outcomes and greater cost savings.

How does it benefit you?

Your employees are able to choose high-quality and efficient providers who can deliver quality outcomes and lower overall health care costs at a time when that's extra important. Having healthy, present and productive employees will help your business succeed, which is important now more than ever.

How does it benefit your employees?

- Takes away the guesswork and research required to find the best provider for their condition
- Gives them access to the best care for their needs at the right time

Ask your Aetna representative about Aetna Smart Compare.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).

Aetna® is part of the CVS Health® family of companies.
